## RIVERS OF BLOOD

Sanguinary Prophecy of a Stern Old Russian General.

### PARTING OF THE WAYS

Time is Coming When Revolutionary Party Will Lose Its Game and Russia Her Liberty.

The Situation is Conceded in St. Petersburg to Be Exceedingly Ominous.

St. Petersburg, Dec. 12.—The situation is exceedingly ominous. Public opinion is practically unanimous that the government has entered upon the fatal path of reaction and that Witte's ministry must fall. Reaction and revolution confront each other in a death struggle. Both General Trepoff and General Count Ignatieff, according to the popular impression, are being held in reserve to execute the program of repression. It is again said that the entire Cossack strength of 400,000 will be mobilized in a supreme effort to crush the revolutionary forces.

General Parsenoff said: "I think we are coming to rivers of blood, in which the revolutionary party will lose their game and Russia her liberty."

Certainly the appearance of St. Petersburg and events here seem to justify this black picture of the future. The capital resembles a great military camp. The patrols everywhere have been doubled and grim-looking cannon rumble through the streets. What has happened smacks strongly of the old regime.

It is believed that if the attempt at reaction is persisted in, the moderate liberals, who are disgusted with the tactics of the revolutionists, fearing anarchy and are inclined to support the government, will surely be driven back into the camp of the extremists. Premier Witte's friends declare emphatically that he has never been in favor of armed repression, and they intimate strongly that the arrest of the strike leaders must be charged to Interior Minister Durnovo, who insisted that he had proof which could be established in the courts that M. Krustaleff was planning an armed revolution and that besides attempting to subvert the government, he had attacked its credit in circulars advising the workmen and peasants to withdraw their funds from the savings banks. Notwithstanding this, doubt is expressed as to whether M. Durnovo can establish his case, as the specific law making agitation for political strikes which interfere with the railroads, telegraphs, posts, etc., a criminal offense has not yet been promulgated. It is expected, however, that the law will be promulgated before the end of the week, when it is said the government can proceed legally against the present agitators.

It is understood that General Dedulin, prefect of St. Petersburg, has refused to carry out M. Durnovo's orders; that he has resigned and that he has been succeeded by Baron De Meyendorf, commander of Emperor Nicholas's bodyguard.

Riga is completely cut off from St. Petersburg. Even the railway telegraph is not working. The scanty news reaching St. Petersburg is all to one effect. The last advice received from the Baltic provinces reported the desecration of churches, the murder of land owners and the pillaging of property. The revolutionaries are growing in audacity. In one case they attacked a detachment of troops and seized wagons, which they used in the invasion of estates in the vicinity. They escaped on a narrow-gauge railway after capturing a train. A meeting held in the Nemetti theater here, which was attended by representatives of all the associations advocating a constituent assembly on the basis of universal suffrage, was broken up by the police, who drove the audience from the theater.

The extreme newspapers of St. Petersburg are openly defying the government by publishing resolutions favoring armed uprisings.

It is learned on high authority that the government has finally decided against universal suffrage and practically in favor of the old project of twenty-one workmen representatives and the extension of the ballot to the small rent-payers, merchants and the educated classes. However, the law must still pass the council of the empire and receive imperial approval. If the decision is upheld it is apt to end all question of the support of the zemstvoists.

### A BLOODY MUTINY

Details of the Harbin Uprising Are Shocking.

London, Dec. 12.—The Daily Telegraph this morning prints a continuation of the dispatch from Mouji, Japan, begun yesterday, giving in circumstantial detail accounts by refugees of the alleged sacking and burning of Harbin, Manchuria, by mutinous Russians, of desperate fighting between the mutineers and loyal troops and of the massacre of many innocent Russian and Chinese residents. It says that General Madarloff, with cavalry,

adopted extremely drastic and inhuman methods to suppress the mutiny, because he feared the consequences that might result from the spread of the mutiny to the whole army.

In order to compel the mutineers to quit their hiding places, the general sent men to set fire to the barracks and the public buildings. The blaze spread to all parts of the city and the mutineers, in trying to escape, were slaughtered to the number of 300 by the cavalry.

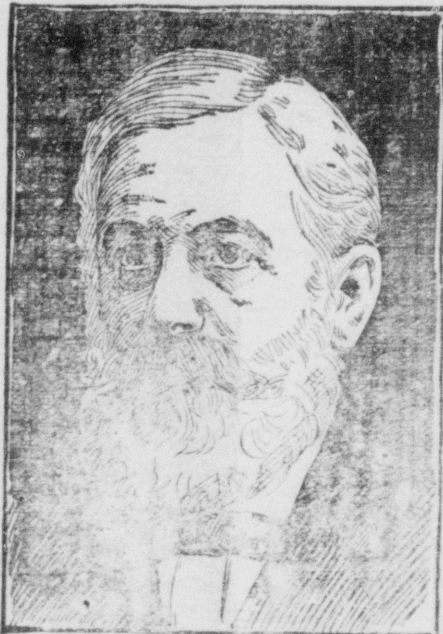

Later the loyal portion of the garrison was called out, but in the confusion and disorder the troops fired on each other, it being impossible to distinguish the mutineers from the loyal soldiers. Then the mutineers dragged out several machine guns and poured a heavy fire into the cavalry. There was great loss of life.

Mr. Atkinson had probably given more advice to his fellow-citizens on more subjects than any other American. He was a great pamphleteer.

### Annapolis Makes an Appeal.

Annapolis, Md., Dec. 12.—The city council last night passed unanimously a resolution petitioning congress not to authorize the destruction of the old frigate Constitution, but to have it brought to Annapolis and kept at the naval academy as a memorial of the great deeds of the American navy and an incentive to the midshipmen.

### Lynched by His Own Race.

Memphis, Tenn., Dec. 12.—Jim Green, a negro, has been lynched at Boyle, Miss., by members of his own race. Green had assaulted a negro girl aged eight years. He was captured at Shaw Station and returned to the scene of his crime. A posse of negroes took him from his captors and hung him to the limb of a tree.

### More Frenzied Finance.

Louisville, Ky., Dec. 12.—With liabilities amounting to \$87,000 and with only \$2.87 in the treasury, E. D. Martin and the board of directors of the People's Life and Accident Insurance company, with headquarters in this city, has filed a deed of assignment and asked for the appointment of a receiver.

## A ROW IN SIGHT

Democratic Members In Congress Not In Closest Harmony.

### STEPPED ON THE LID

Mr. Williams Gets Into Action Just In Time To Prevent Revelations of Skeleton In Closet.

Mr. Lamar Was on Point of Talking Out of School When He Got His Quietus.

Washington, Dec. 12.—Mr. Williams, the minority leader of the house, "stepped on the lid" just in time to prevent revelations in the nature of open criticism of the committee assignments of certain of his colleagues for which he is responsible. Mr. Payne, the Republican leader, naively suggested a way by which the revelations might be made, but Mr. Williams assumed all responsibility and "declined to allow the washing of Democratic linen for the amusement of the Republicans."

The incident followed the announcement of committees. Mr. Lamar of Florida submitted and had read a newspaper clipping purporting to quote Mr. Williams to the effect that Mr. Lamar and Mr. Shackelford of Missouri had been left off the interstate and foreign commerce committee because they had failed to follow the Democratic caucus of last session on the railroad rate bill. Speaker Cannon suggested that the statement read off not constitute a question of personal privilege which entitled Mr. Lamar to the floor.

"The gentleman might proceed by unanimous consent," suggested Mr. Payne. "How much time does he want—an hour?"

It was here that Mr. Williams strode forward from his seat in the rear. He hailed the speaker with word and gesture and when he got his eye he reserved his right to object only long enough to make the statement that in the interest of Democratic "harmony, effectiveness and of general good will which will not be promoted by washing Democratic linen for the amusement of the Republicans of the house —I object."

Immediately the situation became decidedly interesting. Mr. Lamar faced Mr. Williams, who stood close to him and charged him with taking the matter into the newspapers. Mr. Shackelford was on his feet vainly demanding to ask a question, and many Democrats applauded the stand taken by Mr. Williams. Mr. Lamar demanded that Mr. Williams call a Democratic caucus or allow him to proceed. Speaker Cannon wielded his gavel vigorously and declared everybody out of order, and in the midst of the confusion recognized Mr. Payne for a motion to adjourn, which was declared carried and the session was over until Wednesday.

Before this incident the session had proceeded without a hitch. The unanimous consent necessary to increase the size of the larger committees had been given, and in this manner the increased membership of the house and increased Republican representation had been provided committee places. The Democrats had lost no committee places, but had made a gain of one, all of which Mr. Williams had declared satisfactory to the minority. As an indication of the intention to begin work at once, several of the committees gained permission to have printing done and to sit during the sessions of the house.

### MITCHELL IGNORED

Senate Makes No Mention of Deceased Member.

Washington, Dec. 12.—With spirited debates on the subjects of railroad rate legislation arising through the introduction of a bill by Mr. Tillman to authorize the interstate commerce commission to fix maximum rates, and the Panama canal, due to a controversy over the reference of the emergency appropriation bill to a committee, yesterday's session of the senate continuously proved interesting for more than four hours. An adjournment was taken without a mention of the late Senator Mitchell of Oregon, and so far, was the first time the death of a senator was permitted to pass unnoticed by the senate. The erasure of Mr. Mitchell's name from the rolls followed. Captain Hale called the situation to mind, in his prayer by referring pointedly to corruption and death and by praying that members of the senate be given strength to bear each other's burdens.

The debate on the Tillman bill was engaged in by a number of senators. Mr. Foraker declared that the bill proved that its author believed the present laws were sufficient to correct all alleged transportation evils except excessive rates and that there was ample provision for the punishment of rebate giving. Mr. Tillman responded that he had thought the laws sufficient until the investigation begun by Messrs. Judson and Harmon into the Santa Fe case had terminated in a pitiable fiasco. Mr. Foraker asserted that the law could not be blamed if "some person" fell short

### IN FIGHTING HARNESS

Governor Hanly Going After the Railroads Hot Foot.

Indianapolis, Ind., December 12.—Governor Hanly has his "fighting harness" on again and is determined to knock out the present form of mileage books, which give the railroads use of \$10 extra from each purchaser until the covering of the book is returned. The governor has sent out a letter inviting the members of the executive committee of the Central Passenger association to meet him in his office Dec. 29 to discuss the proposed abolishment of the \$30 form of mileage book and a return to the old-style \$20 book, good on any train, without the formality of presentation of a slip regularly signed by the agent at the station from which the holder of the book started. Governor Hanly is bent on obtaining a flat rate of 2 cents a mile when the passenger buys a mileage book, and is said to have informed the only representative of the passenger association who showed up at the conference at Chicago Saturday, that unless they come to terms some vigorous steps may be taken in Indiana at once to obtain a rate of 2 cents a mile for ordinary travelers who buy a regular ticket.

Suits will probably be brought within a short time by the Indiana railway commission to test the law enacted by the legislature of 1903 forbidding railroad companies from charging more than 12 per cent of the cost of the ticket for each 100 pounds of baggage in excess of 150 pounds carried free. The wholesale men and members of the commercial traveler's associations appealed to the commission several months ago for relief. The commission arranged for a conference between the two interests, but the railroad companies yesterday afternoon delivered an ultimatum to the traveling men in which it was stated that the act requiring them not to charge more than 12 per cent amounts to confiscation of property and will be disregarded. The traveling men insisted that the railroads obey the law to the letter. The railroads were represented by John B. Cockrum of the Lake Erie & Western; Frank Littleton of the Big Four; S. O. Pickens of the Pennsylvania; John G. Williams of the Vandalia.

The Amen! of marriage is always a baby. Without it, wedlock is a summer field that never blooms, a flower that never buds, a night without stars, a sermon without a benediction, a prayer without an Amen.

There never was a husband worthy of the name, who did not aspire to be the father and the grandfather of healthy, capable children, to hand down his name and the fortune accumulated by the sweat of his brow, from generation to generation. There never was a wife fit to bear that noble title, who did not wish to wear womanhood's most glorious crown, the sceptre of motherhood. Thousands of wedded couples, otherwise happy, fall short of wedlock's greatest happiness because they are childless. In the majority of cases, this is because the wife, through ignorance or neglect, suffers from weakness and disease of the organs distinctly feminine. For women who suffer in this way there is one great medicine that does not fail to accomplish its purpose. It is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs concerned and makes them strong, healthy, vigorous and virile. It always inflammation, heals ulceration, soothes pain and tones the shattered nerves. It fits for wifehood and motherhood. It quickens and vitalizes the distinctly feminine organism. It banishes the maladies of the expectant months and makes baby's introduction to the world easy and almost painless. It insures the little new-comer's health and nourishment in plenty. It is the best supportive tonic for nursing mothers.

Mrs. Jennie Parks, of Marshall, Spokane Co., Wash., writes: "I am glad to tell of the good results of your great medicine—Dr. Pierce's Favorite Prescription. It gives me strength. I have no tired feeling and my baby is the picture of health. I feel better than I have in ten years."

In cases of constipation Dr. Pierce's Pleasant Pellets should be used as an adjunct to "Favorite Prescription." They are extremely simple, perfectly natural and insure prompt and permanent relief.

## HOLIDAY GOODS.

The merchants of Seymour have purchased and have now in stock an unusually large and well selected stock of holiday goods. They made their purchases with great care and are prepared to meet the demands of the trade better than ever before. If you observe the show windows as you pass along you will be convinced of this fact. Go in and look at the goods and you will see the best and largest line of Christmas goods you have ever seen. Seymour merchants always make the prices right therefore here is the place to buy your holiday goods.

Our city is located right for a large trade. A splendid country surrounds us and the people are prosperous. Our transportation facilities and our good roads give us superior advantages. By judicious advertising the trade of all this territory can be reached. All the merchants should help to advertise the advantages that Seymour possesses as a trading center. If every merchant in the city would advertise regularly there would be a marked increase in the amount of business brought to this city. Money invested in well edited newspaper space always brings large returns. It is the best possible means of advertising the progressiveness of a city.

CITIZENS should remember the open meeting of the Indiana State Grange at 10 o'clock tomorrow at the opera house. There should be a good crowd of our people there.

# INDIANA STATE GRANGE.

## THIRTY-FIFTH ANNUAL SESSION CONVENED HERE TODAY.

Annual Address of Aaron Jones, Master, Chief Event of Today.—Attendance Good.

The thirty fifth annual session of the Indiana State Grange convened in Armory Hall this forenoon with a good attendance. Delegates are present from all parts of the state and the members of the Seymour Grange are extending a generous welcome. The citizens generally are taking much interest in the meeting and there will surely be a large attendance at the open meeting Wednesday morning when Mayor Graessle and Judge Lewis will formally welcome the visitors. Responses will be made by Hon. Aaron Jones and others. This open meeting should be well attended by our citizens.

The present officers of the State Grange are:

Master, Aaron Jones, South Bend.  
Overseer, G. W. Sawdow, Aurora.  
Lecturer, W. J. Banks, Warsaw.  
Steward, Archibald Stinson, Rochester.

Asst. Stew., J. W. Lyskowski, Lanesville.  
Chap., F. J. Robinson, Cloverland.  
Treas., J. W. Holmes, Seymour.  
Sec'y., A. T. Spry, Frankfort.  
Gate keeper, J. E. Baer, Columbia City.

Certs., Leone Savage, Wagoner.  
Pomona, Mrs. Ed Poulson, Warsaw.  
Flora, Bessie Lower, Columbia City.  
Lady Asst. S. Mrs. Anna Hays, Frankfort.

The chief feature of the meeting today was the annual address of the Master, Aaron Jones, which was heard by a large audience this afternoon. Below is the address in full.

To the Patrons of Husbandry and Citizens of Indiana:

We have assembled to devise measures for the welfare of our order, the improvement of agriculture and to promote the best interests of the citizens of the State. Indiana is a great agricultural State, with fertile lands, productive farms, comfortable homes, valuable coal fields, inexhaustible stone quarries, great natural forests; has prosperous and growing towns and cities; has important and valuable manufacturing, steam and electric railways reaching all sections of the State, good public highways, a healthful and salubrious climate, is well supplied with excellent water for domestic, stock and manufacturing purposes, and has within her borders attractive chautauqua and pleasure grounds. Her school and church privileges are unsurpassed. No

attract many young people who desire that kind of life insurance, and the fire protection would interest those who desired that kind of protection, and would thereby build up the order.

The co-operative feature should be perfected and extended and great financial savings will come to our members. We live in an age of co-operation and consolidation of capital, of labor, of transportation, of professional services, and the farmer must of necessity co-operate along the lines of his business, or the results will be disastrous to him financially. He must see that business is fair and that laws give equal protection and advantages to all classes, and that his children have equally good school facilities, and that he pays his just proportion of taxes and no more. If the farmer neglects to look after and fully protect his rights in this regard, who will? It is up to the farmer to lessen his labors on farm and in household. It is up to him to look after the best markets and the best methods of reaching and using those markets for his products. If he does not do it, who will? If the organization of the Grange does not attend to these matters, what organization will? Individual farmers are powerless. Standing alone they can do nothing, but through united effort every interest can be fully protected. It is up to the State Grange to point out how members of Subordinate Pomona State and National Granges can co-operate in securing justice in all these matters. It can not be done by complaining, by fault-finding with the efforts of others, by belittling, misrepresenting and attributing improper motives. In short, the only way it can be done is by making our order what it ought to be, by making membership in it so valuable to good farmer, wife, son or daughter as to afford to stay out of the order. This means work, study, constant planning, and not stop then, but by doing things and doing them effectively and well. To accomplish all these objects requires some means, some resources, some money to pay for what others may do for us. Don't expect others to labor for you constantly gratuitously, but be willing and ready to pay for good work. Some complaint is made as to fees for membership. Keep up your fees and use them to better your Grange and enlarge and extend its membership and influence.

## AGRICULTURE.

The greatest industrial interest of Indiana is agriculture, as it is and will continue to be for all time the greatest industry of the nation. It lies at the base and is the corner stone, the substructure on which manufacturing, commercial, political and professional interest depend for support and prosperity. Anything that promotes agriculture therefore advances the interest of every legitimate calling.

Hon. James Wilson, Secretary of Agriculture, in his report this year, 1905, says:

"The American farmers have produced from their farms the enormous aggregate of \$6,450,000,000. One-sixth of this year's crops would pay the National debt, and more than half enough to buy the 250,000 miles of railways, with all their rolling stock, side-tracks, right of way, all their depots and terminal stations. Raised products that enabled manufacturing consumers to employ 2,154,000 persons. Exported \$875,000,000 worth of farm products."

He gives as the value of some of the products of the farm for 1905:

Corn	\$1,216,000,000
Wheat	725,000,000
Beef cattle	662,000,000
Hay	605,000,000
Oats	282,000,000
Potatoes	138,000,000
Barley	58,000,000
Tobacco	52,000,000
Sugar cane and beet	50,000,000
Rice	13,000,000

## CONDITION OF THE ORDER.

In the past eight years the order throughout the United States has made a net gain in membership of 78 per cent. The ritual work of the order, the social, the educational and the co-operative work has also greatly improved. These results are most gratifying to all members of the order.

The future growth, influence and ben-

Cotton	500,000,000
Dairy products	625,000,000
Poultry industry	500,000,000
Sheep and swine	283,000,000
Other items not enumerated	941,000,000

The Secretary further says: "Never before in the history of this or any other nation on the face of the earth has such a tremendous result been attained." Again he says: "Should there be no release from the present position as a wealth producer, three years hence the farmer will find that the farming element—about 35 per cent. of the population—has produced an amount of wealth within ten years equal to one-half the entire national wealth produced in three centuries."

Again he says: "In sixteen years farmers have sent to foreign countries a surplus of \$12,000,000,000, leaving an apparent net balance of trade during that time amounting to \$5,092,000,000. After an adverse balance against manufactures and other products not agricultural amounting to \$543,000,000 has been offset."

This showing of the importance of the agricultural interest of this nation, made by the Secretary of Agriculture, is pleasing to the farmer and to every loyal citizen and must impress them that it is no vain boast that the prosperity of all manufacturing and commercial interests and the prosperity of the nation depends on successful agriculture. This wealth within ten years equal to one-half the entire national wealth fostered and protected this interest as other interests have been fostered and protected? Has it allowed unjust discriminations in trade, in transportation, in tariff laws, in combinations and trusts to take from the farmers what is justly their due, to swell the enormous profits of railroad and other monopolies, such as the Standard Oil Trust, the United States Steel Trust, the International Harvester Trust, life and fire insurance trusts, the express company trusts and hundreds of other trusts and combinations that could be mentioned.

In this connection I desire to reproduce what I said in my annual address to National Grange, November, 1898, delivered at Concord, New Hampshire:

"The vast wealth annually produced by the farmers furnishes the foundation on which rest the great commercial, manufacturing and transportation interests of the country. It is always of interest and value to any one to examine the inventory of his property from time to time, to fully know the situation of his business affairs. Each ten years the United States takes at great expense an inventory of all the property of the people of the United States, and it is equally valuable to the people to examine this inventory, as when taken and recorded in the census returns, as it reveals, without partiality or concealment, the relative prosperity and growth in wealth of the varied interests of our country. This inventory should arrest the attention of members of Congress and furnish them something of a guide in the shaping of legislation."

Total value of all property in United States:	
1870	\$7,135,780,228
1880	10,759,070,000
1890	23,997,251,474
1880	43,642,000,000
1890	65,037,091,197

Total value of farmers' property:

1890.....\$3,967,343,580, or 55.59 per cent.  
1880.....7,980,493,063, or 49.38 per cent.  
1870.....8,885,658,218, or 37 per cent.  
1880.....12,104,001,538, or 27.73 per cent.  
1890.....15,982,267,689, or 24.54 per cent.

It will be noted that in 1850 the farmers owned 55 per cent of the total property of the country; in 1890 only 24 per cent. It is conceded that farmers are the wealth producers. What are the causes and why have not farmers retained and increased their wealth in like proportion to other classes? If those causes are found to be the want of business ability, extravagance, wasteful and unthrifty habits of the farmers themselves, or if it is found to be the result of combinations of men and capital in trusts and combines, excessive charges in transportation, storage, commissions, unequal prices in exchange of products, unequal taxation, local and national, or discriminating laws—any or all of these, or whatever other causes—then the duty of the farmer is clear. It is to go energetically to work and remove the causes and demand justice.

If railways, by discriminating and unjust rates, and trusts and combinations of men and capital, have enabled all, or substantially all, the profits of the farm, wonderful crops are of more advantage to other classes than to the farmers themselves. These are wrongs that should and must be righted. The President is right—corporations must be controlled, unreasonable rates and rebates must be stopped. Trust methods that rob the people must also be stopped if the farmers and the common people are to profit by great crops.

**NATIONAL GRANGE.**

The thirty-ninth annual session was held in Atlantic City, New Jersey, November 15th to 24th, inclusive. It was one of the most important sessions ever held by this body. Ex-Governor Each-elder of New Hampshire, one of the ablest men of the order, who has served the order faithfully and well, first as secretary and master of his Subordinate Grange, as secretary and master of the New Hampshire State Grange, as member of the Executive Committee and treasurer of the National Grange, was elected master. His long and faithful service in the order, his honesty and integrity and his standing as a citizen, made his selection eminently fitting. He will do honor to the position and the order has conferred upon him the greatest honor ever bestowed upon him. He will bring to the office a cultured mind, an honest purpose, great energy, and I predict the membership will cordially unite with him in extending the membership, enlarging the influence of the Grange in securing just laws and their enforcement, and in the grander and nobler work of the order in developing high Christian character among the farming population.

Brother George W. F. Garnet of New Jersey, a man of sterling integrity, a fluent and able talker, full of energy and enthusiasm, was elected lecturer. All his efforts will be directed along lines to elevate and help the farmer. All the other officers elected are able and good men and women.

**LAWS THAT ARE ADVOCATED.**

The Grange stands firmly by its position upon matters of legislation, neither swerving from it by the importunities of interested parties nor receding by reason of failure to secure its demands until convinced of error, and to promote the welfare of all the people.

The following proposed legislation was considered, approved and urged at the 33d, 34th, 35th, 36th, 37th, 38th and 39th sessions of the National Grange:

1. Free delivery of mails in the rural districts, and that the service be placed on the same permanent footing as the delivery of mails in the cities and the appropriations to be commensurate with the demands and the benefits of the service.

2. Provide for postal savings banks.

3. Submit an amendment to the Constitution providing for the election of United States Senators by direct vote of the people.

4. Submit an amendment to the Constitution granting the power to Congress to regulate and control all corporations and combinations, preventing monopoly and the use of their corporate power to restrain trade or arbitrarily establish prices.

5. Enlarge the powers and duties of the Interstate Commerce Commission, giving it authority to determine what changes shall be made or what practices are discriminative or unreasonable, and their findings to be immediately operative and so to continue until overruled by the courts.

6. Regulate the use of shoddy.

7. Enact an amendment to the Constitution providing for the election of United States Senators by direct vote of the people.

8. Provide for the extension of the markets for farm products equally with manufactured articles.

9. The enactment of the anti-trust law, clearly defining what acts on the part of any corporation would be detrimental to public welfare.

10. The speedy construction of a ship canal connecting the Mississippi River with the Great Lakes and the Great Lakes with the Atlantic Ocean.

11. Revising the fees and salaries of all federal officers and placing them on a basis of similar service in private business.

12. Provide for parcels post, telephone and telegraph in the mail service.

13. Provide for national and State aid to improve public highways.

I again recommend to the several State Granges that they continue to urge upon their respective State Legislatures the enactment of appropriate legislation on the following important matters:

# Indigestion

There is no reason why a person should not eat anything he chooses—if he chews it carefully—the trouble is most people are afraid of every good-looking, good-smelling, good-tasting thing on the bill of fare because it "don't agree with them." They actually starve themselves into sickness. Dieting cannot cure dyspepsia—if we cut off every article of food that disagrees with us before long we have nothing left, and we find ourselves chronic dyspeptics. When you eat something that don't agree with you, it's time to get after your stomach and tone it up. From our own experience in selling dyspepsia cures, there is nothing that equals Rexall Dyspepsia Tablets. From what our customers tell us of this Rexall Remedy we are convinced that consistent use of it will give any one the stomach of an ostrich and the appetite of a farm hand. We don't know of a stomach trouble Rexall Dyspepsia Tablets won't cure.

We place the same guarantee on this remedy that we do on all Rexall Remedies, money back if dissatisfied. Fifteen days' treatment for twenty-five cents. Try it to-day.

**Do the right thing if you have Nasal Catarrh.** Get Ely's Cream Balm at once. Don't touch the catarrh powders and snuffs, for they contain cocaine. Ely's Cream Balm releases the secretions that inflame the nasal passages and the throat, whereas common "remedies" made with mercury merely drive them out and leave you no better than you were. In a word, Ely's Cream Balm is a real cure, not a delusion. All druggists, 50c., or mailed by Ely Bros., 56 Warren street, New York.

**SAUERS.**

Albert M. Morey, of Adrian, Michigan, was through this community last week.

Harman Schurman, who has employment at Seymour, visited home folks Sunday.

Fred Sierp and wife, of Seymour, spent Sunday here with friends.

John Alfes, of Grassyfork township, called on friends here Sunday.

**PARCELS POST.**

This matter was unanimously urged by the National Grange. There is not now, nor never has been, any good reason why we should not have a parcels post law, as favorable to the people as any country in the world. Ex-Postmaster General Wamamaker says there are but five reasons why the law has not been passed, and these reasons are that it would reduce the profits of the Adams Express, the Wells-Fargo Express Co., the United Express Co. and the railroads.

The United States charges 16 cents per pound for sending packages of merchandise through the mails and limits them to four pounds in weight.

In England parcels not exceeding one pound in weight may be sent any distance through the mails for 6 cents; three pounds, 10 cents; four pounds, 12 cents; five pounds, 14 cents; six pounds, 16 cents; seven pounds, 18 cents; eight pounds, 20 cents; nine pounds, 22 cents; eleven pounds, 24 cents. In England parcels weighing more than eleven pounds are not accepted.

In Germany parcels not exceeding eleven pounds in weight may be sent a distance of forty-six miles for 6 cents; for unlimited distances within the German and Austrian Empires for 12 cents. For excess weights and distances, the scale of rates varies. Germany accepts parcels to be carried through the mails of weight up to 110 pounds.

Contrast the difference it costs in America 64 cents to carry four pounds twenty-five miles. In Germany eleven

## Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.

## LOOKING TO COMPROMISE

Bondsmen and City Negotiating in the Cutshall Matter.

Brazil, Ind., Dec. 12.—It develops that the postponement in the investigation of the alleged defalcation of ex-City Treasurer D. H. Cutshall was not due to other engagements of the referee, before whom the inquiry was being conducted, but because of a mutual agreement to get together, looking to a compromise. There is a report that the bondsmen have offered to settle by paying into the city treasury \$4,000, provided the city will drop the prosecution against Mr. Cutshall. The report of both sets of experts employed by the city fixed the indebtedness of the ex-treasurer in excess of \$7,000, and it is said that the city has consented to accept \$5,000. The city has spent about \$2,500 so far in conducting the investigation.

## Gipe's Second Trial.

Rushville, Ind., Dec. 12.—The second trial of Henry Gipe of Greensboro, charged with the murder of Mrs. Mollie Starbuck and baby Baulah on the night of Saturday, July 9, 1904, is in progress in the circuit court here. Much interest is being manifested in the case. Gipe is kept handcuffed and sits at the right of the jury in company with his father, Henry Gipe. His sweetheart, Nellie Shonard, is in attendance. This trial will be as bitterly contested, if not more so, than the first. Both sides say they have additional witnesses and a stronger case than before. The state has subpoenaed forty-five witnesses and the defense has thirty.

## Interesting Suit Threatened.

Indianapolis, Dec. 12.—It is probable that at the close of the expert investigation of books in the state auditor's office Governor Hanly will bring suit against ex-auditor's for fees collected from foreign insurance companies operating in Indiana. It is held that these fees were collected contrary to statute under the old fee system that was in existence from 1881 to 1895. It is stated that those who held office since the fee and salary law of 1895 went into effect are not involved.

## Give Your Stomach Rest.

Nothing will cure indigestion that doesn't digest the food, itself and give the stomach rest. You can't expect that a weak stomach will regain its strength and get well when it is compelled to do the full work that a sound stomach should do. You wouldn't expect a sick horse to get well when it is compelled to do a full day's work every day of the week. Kodol Dyspepsia Cure is a perfect digestant and digests the food regardless of the condition of your stomach. Relieves indigestion, belching, Sour Stomach and all stomach disorders. Sold by A. J. Pellens and W. F. Peter.

## Defied Police Reserves.

New York, Dec. 12.—Following a shooting affray in which one man was killed and another perhaps fatally wounded three men charged by the police with having been concerned in the affair barricaded themselves in a tenement in West New Brighton, Staten Island. Until the doors were battered down they with their friends defied police reserves of the district to come and take them. With the entire neighborhood on the verge of riot, and after an hour's work, policemen with clubs and revolvers fought their way over opposing ranks of men and women and the arrests were made. Both sides used pistols.

## Jury Could Not Agree.

Indianapolis, Dec. 12.—After having been out for nearly twenty-four hours, the jurors in the case of Patrolman Henry Christ, charged with manslaughter, reported that they had failed to agree, and were discharged by Special Judge William W. Thornton in the criminal court. On the night of July 12 Patrolman Henry Christ shot and killed Edward Cory, a member of the Electrical Workers' union.

South Bend, Ind., Dec. 12.—John O'Connor of Pittsburg, foreman for the gas company, was killed while crossing the Lake Shore tracks.

F. Peter.

## Three Fatally Burned.

Bluffton, Ind., Dec. 12.—The explosion of a pan of crude oil in a house on the farm of John Weinland, three miles west of Poneto, in Liberty township, caused the fatal injury of Miss Cora Weinland and Mrs. Thomas Wallace and the latter's little daughter, aged one year. Miss Weinland and Mrs. Wallace died at a late hour last night after the most intense suffering, and the child cannot recover.

## Clear the Way.

The mission of "Early Risers" is to clear the way and give nature full sway. These famous little pills rid the stomach and bowels of all putrid matter, thus removing the causes of headache, constipation, sad low complexion, etc. DeWitt's Little Early Risers never gripe or sicken. A safe, pleasant, perfect pill. Mack Hamilton, hotel clerk at Valley City, N. D., says "Two bottles of these famous little pills cured me of chronic constipation." Sold by A. J. Pellens and W. F. Peter.

## TRIAL POSTPONED

David E. Sherrick's Mental Condition Considered a Bit Shaky.

## HAZARD IN HEARING

Doctors Testify That the Excitement of a Trial at Present Might Have a Bad Effect.

On This Ground Ex-State Auditor's Case Is Postponed Until January 8.

Indianapolis, Dec. 12.—A plea of mental and physical collapse was largely responsible for the postponement of the hearing of David E. Sherrick, ex-auditor of state, from Dec. 14 until Jan. 8. Dr. Albert E. Sterne at whose sanitarium Sherrick has been an inmate most of the time since his removal from office by Governor Hanly, and Dr. Charles E. Cottingham, who has known Sherrick for a long time, testified that if Sherrick was forced to stand trial at this time his physical and mental condition might be permanently impaired. Sherrick was present during the argument. His attorney insisted on a postponement until the middle of January, but finally compromised on the date named. It is learned at the statehouse that the reason the money made up to pay the remainder of Sherrick's shortage has not been turned over to the treasurer is that his friends who subscribed it stipulated that it should not be paid until the experts presented a report showing there are no other obligations against Sherrick. Most of the men who put up the money did it with the knowledge that it was a personal sacrifice and that they might lose, but they were anxious to befriend Sherrick and help him out of his trouble. It is also understood that powerful political influence was at work to obtain a postponement of Sherrick's trial.

## Sherber Goes to Pen.

Brownstown, Ind., Dec. 12.—Edward Sherber, who attempted to kill his wife, whom he met on a Pennsylvania train at Rockford, this county, last July, after she had left his home at Indianapolis because of ill treatment, was found guilty by a circuit court jury and he has been committed to prison under the indeterminate sentence act, for an attempt to commit murder.

## The Season of Indigestion.

The season of indigestion is upon us. Kodol Dyspepsia Cure for Indigestion and Dyspepsia will do everything for the stomach that an over-loaded or over-worked stomach can not do for itself. Kodol digests what you eat—gives the stomach a rest—relieves sour stomach, belching, heart-burn, indigestion, etc. Sold by A. J. Pellens and W. F. Peter.

## Lost Fortune in Wreck.

Rock Springs, Wyo., Dec. 12.—Ninety thousand dollars in gold belonging to a shipper whose name the railroad and express companies will not disclose, was in one of the cars of the Overland Limited which was wrecked and burned last week at Assay, and it cannot be found.

## The Sultan Gives In.

## A Certain Cure for Croup

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never been known to fail, viz: Chamberlain's Cough Remedy. Mr. M. F. Compton of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in severe cases of croup with our children and can truthfully say it always gives prompt relief." For sale by C. W.
